### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Corwin Umbach on 3/10/06.

The application has been amended as follows:

Claims 23-27 have been canceled.

Applicants reserve the right to file divisional applications towards the canceled apparatus claims.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Applicants' presently claimed process for the continuous preparation of propylene glycols is unobvious over the prior art of record because the prior art of record does not teach or suggest continuously preparing propylene glycols, wherein the presently claimed subsequential steps (i) through (iii) are carried out. Such a modification allows for the usage of crude propylene oxide (produced from propylene and hydrogen peroxide), along with by-products of propylene glycol, instead of pure propylene oxide, which ultimately renders a more efficient and cost-effective continuous process for preparing the desired propylene glycol. All claims (10-22) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elvis O. Price whose telephone number is 571 272-0644. The examiner can normally be reached on 8:30 am to 5:00 pm; Mon-Fri.
